## From the Editors. . .

We are slightly behind schedule in bringing this Volume 46 of HRJ for reasons not quite in our hands. At the same time, we are delighted to inform our contributors that HRJ is now enlisted in SCOPUS, which had been a requirement that seems mandated by several places across the world, that many of the contributors wished for HRJ. We take this opportunity to express our deep gratitude to Ariane Rolland and Céline Barthonnat of the Episciences team for their immense help in the process.

We keenly look forward to your continued support by way of submitting your works to HRJ. Paper submissions can be done using the Episciences online portal, and detailed instructions for authors available at <https://hrj.episciences.org>.
